

PRANOY RAJ BOLLAREDDY

📍 Anaparthi, Andhra Pradesh ✉ bollareddypranoyraj@gmail.com ☎ 9392645322 🔗 [LinkedIn](#) 🐙 [GitHub](#)

Summary

Aspiring Software Development Engineer with strong expertise in Data Structures, Algorithms, and Full-Stack Development. Built and deployed scalable applications, including a MERN-based platform handling 1000+ real-time records and a sandboxed multi-language compiler. Skilled in optimizing performance using Object-Oriented Programming and designing efficient RESTful APIs. MongoDB Certified Developer with a strong interest in distributed systems and building high-performance, scalable solutions.

Education

Aditya College of Engineering and Technology B.Tech in Computer Science and Engineering	Sept 2023 – Present GPA: 7.87 / 10
Sasi New Gen Junior College MPC (Math, Physics, Chemistry)	Jun 2021 – May 2023 97.7%

Experience

Software Development Intern – Technical Hub Pvt. Ltd. May 2025 – May 2026 (*Part-time*)

- Developed and maintained web applications using **JavaScript, Python, and Java**, contributing to real client-facing projects.
- Applied Data Structures, Algorithms, and OOP principles to improve code efficiency and optimize application performance.

Projects

AU-BloodConnect – Blood Donation System [GitHub](#)

- Built and deployed a full-stack **MERN** platform managing donor registrations and blood donation campaigns, handling **1000+ real-time records**.
- Designed **RESTful APIs** and implemented **role-based access control**, eliminating unauthorized access and improving system reliability.

Online Compiler (Multi-Language) [GitHub](#)

- Engineered a browser-based compiler supporting multiple programming languages with real-time execution and output rendering.
- Implemented secure backend execution using sandboxed environments to safely process untrusted user code.

Resale Price Estimator [GitHub](#)

- Developed a dynamic pricing system using custom prediction logic based on product attributes such as condition, age, and category.
- Enabled real-time price estimation, improving decision-making for resale value assessment.

EvtntGo Web – Organizational Project [GitHub](#)

- Contributed to frontend development using **React** and **Vite**, improving UI responsiveness and user experience.
- Implemented secure admin authentication with role-based access for platform management.

Skills

Languages: JavaScript, Python, Java, C, C++, SQL, HTML, CSS

Frameworks & Tools: React.js, Node.js, Express.js, Git, GitHub, VS Code, Docker

Cloud & Databases: AWS, MongoDB, MySQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, REST APIs

Familiar: TypeScript, Solidity, Blockchain, JWT, 2FA

Certifications

- MongoDB Associate Developer Certification – MongoDB (2026)
- Java Certified Foundations Associate – Oracle University (2025)
- GitHub Foundations Certification – Microsoft Learn / GitHub (2026)
- Design & Implementation of Human-Computer Interfaces – NPTEL, IIT Guwahati (2025)

Interests

Cricket, Trekking, Cooking, Road Trips
